## From Your Kitchen

Oil (cooking, olive or coconut)  
Salt & Pepper  
Water  
Paper Towel

**1. BUBBLE BUBBLE** Boil the kettle. Rinse the rice and place in a pot over a medium-high heat. Submerge in 450ml of boiled salted water and pop on a lid. Once boiling, reduce the heat and simmer for 10 minutes until most of the water has been absorbed. Keeping the lid on, remove from the heat and set aside to steam for a further 10 minutes. On completion, drain if necessary and fluff up with a fork.

**2. NUTS FOR NUTS** Place the peanuts in a pan over a medium heat. Toast for 3-5 minutes until golden, shifting occasionally. Remove from the pan on completion and set aside. Roughly chop when cool enough to handle.

**3. A VEG OF MANY NAMES** Return the pan to a medium-high heat with enough oil to cover the base. When hot, fry the sliced aubergine for 5-6 minutes per side until crispy on the outside but soft in the middle. Remove from the pan on completion and allow to drain on some paper towel.

**4. GORGEOUS SAUCE** Place the cornflour in a bowl and gradually mix in 45ml of water until a runny paste – this is called a slurry! Return the pan to a medium heat with another drizzle of oil if necessary. When hot, fry the white spring onion slices, grated garlic, and chopped chilli to taste, for 1-2 minutes until fragrant, shifting constantly. Stir in the chilli sauce, shelled edamame beans and  $\frac{3}{4}$  of the chopped peppers. Pour in 400ml of water and stir until incorporated. Once boiling, mix in the slurry and cook for about a minute until glossy. Gently submerge the aubergine and baste for 1-2 minutes until reheated. Pour in the sesame oil and stir in  $\frac{1}{2}$  of the basil leaves until wilted. Remove from the heat.

**5. TUCK IN!** Dish up the fluffy jasmine rice and spoon over the saucy aubergine and peppers. Garnish with the chopped, toasted peanuts, the green spring onion slices, the remaining basil leaves and remaining chopped peppers. Stunning, Chef!

## Chef's Tip

A slurry is a mixture of flour and water. Making a slurry before using your flour reduces the risk of it clumping when added to a sauce, soup, or stew. This way, it gets evenly dispersed with no fuss!
