1. LET'S PREP THE PIZZA Preheat the oven to 200°C. Remove the pizza base from the freezer. Evenly sprinkle the grated cheese over the base and top with the sliced olives, the chopped peppers, and the drained sun-dried tomatoes. Crumble over the drained feta. Carefully slide the base directly onto the oven rack and cook for 7-10 minutes, or until the cheese has melted and the base is crispy.

2. FINISHING TOUCHES Garnish your sun-dried tomato pizza with the rinsed green leaves. Add a final grind of black pepper and a pinch of salt. Bon appetit, Chef!
